Emotional blunting in MDD: the latest evidence in management strategies

A Q&A session will follow the presentations

Join us for an Industry Mini Session with our expert panel **Andrea Fagiolini (Chair)**, **Susana Sousa Almeida** and **Greg Mattingly** who will explore the impact of emotional blunting on the quality of life and functioning of patients with MDD. The faculty will discuss the role of emotional blunting as a barrier to achieving functional recovery in clinical practice and will review the latest scientific evidence for antidepressant treatment strategies.

The European Accreditation Committee in CNS (EACIC) has granted 1 CME credit to this Industry Mini Session. Both in-person and online participants can claim CME credits via the online congress platform. The deadline is 18 December 2024.
